RoughDeck® QC QUICK CLEAN

STAINLESS STEEL FLOOR SCALE

The rugged design incorporates 304 stainless steel construction and four welded-seal load cells with PTFE cable designed for high temperatures and washdown areas.

Known as the toughest, most accurate floor scale line in existence, the RoughDeck's legendary performance is now customized for food, chemical and other frequent washdown applications.

RoughDeck QC is ***the*** weighing solution for efficiency and safety when cleaning cycles are tight. Our exclusive gas-shock design offers easy lifting, but even more importantly, eliminates dangerous slamming of the deck when closing. For added safety and convenience, a manual support bar swings into action during extended underdeck cleaning.

Legendary RoughDeck performance and innovative specialty features—the ultimate washdown solution.

Dual corner locks secure the deck to the base for safety, durability and convenience.

Unique dual gas-shock design provides easy opening and gentle closing.
